

“LEMSCO” SERIES MEDIUM DUTY PANELS

The 2W “Lemsko” Series Medium Duty Panels are a medium weight, postless panel that is designed primarily for perimeter panel applications. These panels are a popular choice of panel due to their wide range of uses which include pens, round pens, property fencing, and other medium stress cattle handling applications.

Made from 14 Gauge - 1½” Diameter Round Steel Tube that is laser saddle cut and robotically welded - these medium duty panels utilize the same manufacturing practices as 2W’s “400, 500, 600” Series Heavy Duty products. These panels are powder coated in 2W’s standard **Dark Gray**.
